

A FAIR SHARE

FOR FARMERS AND LANDOWNERS

The Fair Share is designed for owners of lower productivity land (land use class 6 and above). Working in partnership with New Zealand's leading experts in growing and managing trees under the ETS, you can earn returns on growing trees for permanent or harvestable forests, without having to deal with complex rules.

HOW IT WORKS

YOU

Choose your lower-productivity land for planting – while keeping ownership of your property.

WE

Plant and manage the trees and deal with every aspect of the ETS.

SHARED

The carbon credits from the forest are shared equally.

You can use your carbon credits however you'd like – sell them on the market, store them as an investment or use them to hedge farm emission costs.

KEY BENEFITS

Diversify your income

Improve returns on your lower-productivity land

Free up capital for investment

Hedge on farm emissions

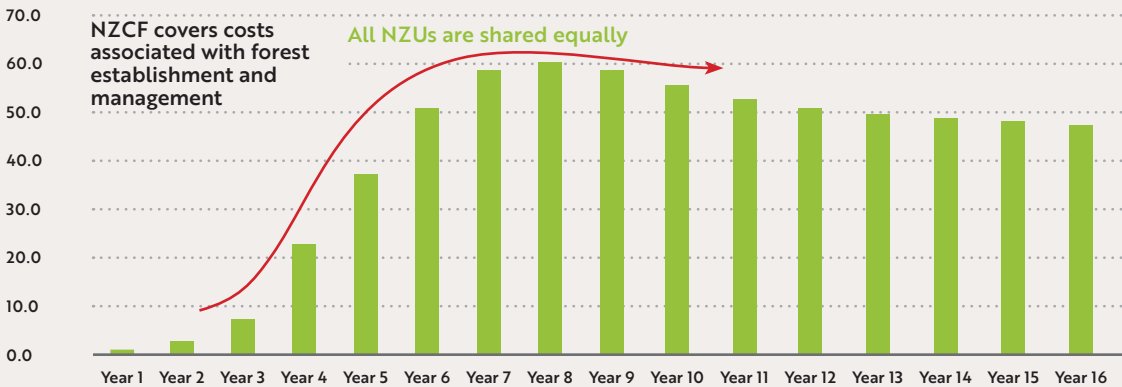

Lasting legacy for the environment, and your family

WHO BENEFITS?

Local landowners | Hill Country Sheep and Beef farmers
Local Iwi | Jobs for the community | Working with local businesses | Your environment

WHAT COULD A FOREST EARN?

NZUs¹ per hectare

NZUs shared 50/50
Ongoing annual income from carbon credits

¹ This graph is illustrative only, with NZU yield based on an illustrative carbon forest within New Zealand Carbon Farming's Central North Island forest estate and will vary from site to site. It should not be considered advice and cannot be relied on, nor is it necessarily representative of your future forest's costs and earnings. We give no warranty and make no representation about NZU yield or the NZU price.

OUR LEASE PARTNERSHIP MODEL

ESTABLISHMENT AND MANAGEMENT ACTIVITIES AT NZCF'S COST

Site Preparation	Planting	ETS Compliance	Forest Management
<ul style="list-style-type: none"> Eligibility assessment Pest eradication Tracking Planting maps 	<ul style="list-style-type: none"> Planting crews Seedlings Quality control Release spraying Blanking Pest control 	<ul style="list-style-type: none"> Registration ETS Field management Ongoing ETS management 	<ul style="list-style-type: none"> Carbon insurance Thinning Forest health Fire management plan

You continue to cover rates and fencing

ESTABLISHED IN NZ AND RUN BY LOCAL PEOPLE

We're working for the good of our community and the environment. We partner with over 6,000 landowners, providing long-term returns on their marginal land.

CO-INVEST WITH EXPERTS

We've got a successful track record working with local partners in the ETS. Over the past decade, we've returned more than \$95 million to farmers and landowners.

HOW CAN WE WORK TOGETHER?

1

Call or drop us a line and we'll arrange a meeting at your place.

2

Working with you, we'll consider the potential for your less productive farmland to become a valuable asset.

3

We then tailor a specific package and offer for you, based on sharing NZUs or any specific income requirements.

4

We can also meet with your independent advisors.

Call 0800 NZU ETS or email info@nzcarbonfarming.co.nz
